

What's Happening at the Marina

With the boating season now in full swing, we want to get everybody up to speed on what's going on at Coltons Point Marina. We are excited about upcoming projects and events at the marina. Each year we hope to improve slip customer and boat club member activities at the marina and we welcome suggestions for additional events and improvements.

Marina Improvements

We have completed the concept site plan for the pool / recreation area. The plan is to finish the permitting process this summer and have a pool ready for the beginning of 2014 season. Stop by the office to see a full size site plan.

This spring we completed repairs to the "B" Dock main pier. Throughout the summer and fall we will be repairing pilings under the covered slips but there should be minimal to no impact on slip holders. If we need to relocate a boat for a day or two, we'll contact you and make sure it doesn't interfere with your summer boating plans.

We have also begun the process of obtaining the titles to some of the derelict boats in the "back forty" of the marina property. This is in an attempt to get rid of about ten boats that are becoming an eyesore in the boatyard and make room for the ever growing winter storage demand. Please pardon the roll-offs and demolition while we complete this process.

Upcoming Events

Because the BBQ and Movie Night on June 1st was such a great time, we've decided to do an outdoor movie night on the first Saturday of each month starting in August and running until mid Fall. We're happy to take suggestions and we'll see what we can do to get the movie. Some improvements for upcoming movie nights include Pop Corn and Bug Spray.

Upcoming Events include:

- August 3rd – Movie Night
- August 17th – Crab Feast and Band
- September 7th – Movie Night
- October 5th – Movie Night
- October 19th – Chili Cook-Off

We will be sending out an invitation to the August 17th Crab feast and ask that you RSVP to the invite as soon as possible so that we can plan and order appropriately.

**Green
Cleaning
Supplies**

Even though we are still able to get Non-Ethanol unleaded fuel, we still recommend fuel water separators – talk to Mark or Adam in the office about this preventative measure that can really make a difference in your boat's performance and provide an extra layer of protection for your boat engine's carburetors or fuel injectors.

Please remember that keeping your boat tuned up throughout the boating season not only reduces the risk of down time but also improves fuel efficiency.

New Items in the Ships Store

Check out the restocked Bait and Tackle section of the Coltons Point Marina Ships Store as well as some new convenience items including bug spray, sunblock, and First Aid and Health items. As usual, we welcome all suggestions for ships store items and will do what we can to stock requested items.

SOMD Boat Club

The SOMD Boat Club at Coltons Point is now in its second year of operation and we have some great new features that will make boating even more convenient including online scheduling and reservations. If you know of anyone that wants to get into boating, let them know about our boat club and, if they decided to join, you'll get a gift certificate worth \$250

towards fuel or Ships Store purchases at the marina. We believe that the SOMD Boat Club is the most economical way for a family to enjoy boating without all the costs of new boat ownership. Check out the SOMDBoatClub.com website and refer a friend!

(Ray Dodson - one of our initial members caught this 48"/40 lb rockfish this spring on the 232 Coastal)
